

LeMaitre Q2 2018 Record Sales \$27.0mm (+5%), Record EPS \$0.43 (+86%)

July 26, 2018

BURLINGTON, Mass., July 26, 2018 (GLOBE NEWSWIRE) -- LeMaitre Vascular, Inc. (Nasdaq:LMAT), a provider of vascular devices, implants and services, today reported Q2 2018 results, provided guidance and announced a \$0.07/share dividend.

Q2 2018 Results

- Record sales of \$27.0mm, +5% vs. Q2 2017
- Record operating income of \$11.5mm vs. \$5.5mm, +108%
- Record net income of \$8.8mm vs. \$4.6mm, +89%
- Record earnings of \$0.43 per diluted share vs. \$0.23, +86%
- Record EBITDA of \$12.4mm vs. \$6.4mm, +94%

Q2 2018 sales of \$27.0mm increased 5% (+6% organic) vs. Q2 2017. Patches, shunts and allografts led growth. Sales in Europe/Middle East/Africa and Asia/Pac Rim were up 12% and 21% respectively, while sales in the Americas were flat, due in part to the Reddick divestiture.

Gross margin increased to 70.3% in Q2 2018 from 68.0% in Q2 2017, primarily due to product mix.

Operating income in Q2 2018 was \$11.5mm, a 108% increase vs. the year-earlier quarter. Excluding the one-time gain from the Reddick divestiture, operating income in the quarter was \$5.7mm, a 2% increase. Had the Reddick product lines not been divested, the Company estimates adjusted operating income would have been \$6.3mm, a 13% increase vs. the year-earlier quarter (reconciliation below).

George W. LeMaitre, Chairman and CEO said, "We continue to pursue 10% annual reported sales growth and 20% annual operating income growth."

Changes to 2018 guidance since the Company's April 25, 2018 conference call were primarily driven by fluctuations in foreign currency exchange rates.

Divestiture of General Surgery Product Lines

On April 5, 2018, the Company divested its general surgery product lines to Symmetry Surgical, Inc. for \$7.4 million, which resulted in a \$5.9mm gain. Included in the divestiture were the Reddick Cholangiogram Catheter and Reddick Saye-Screw, neither of which were sold to the company's core customer, the vascular surgeon. In 2017, these product lines accounted for \$3.3 million in revenue and \$2.5 million in gross profit.

Quarterly Dividend

On July 23, 2018, the Company's Board of Directors approved a quarterly dividend of \$0.07/share of common stock. The dividend will be paid September 6, 2018 to shareholders of record on August 22, 2018.

Use of Non-GAAP Financial Measures

LeMaitre Vascular management believes that in order to better understand the Company's short-term and long-term financial trends, investors may wish to consider certain non-GAAP financial measures as a supplement to financial performance measures prepared in accordance with GAAP. Non-GAAP financial measures are not based on a comprehensive set of accounting rules or principles and do not have standardized meanings. These non-GAAP measures result from facts and circumstances that may vary in frequency and/or impact on continuing operations. Non-GAAP measures should be considered in addition to, and not as a substitute for, financial performance measures in accordance with GAAP. In addition to the description provided below, reconciliation of GAAP to non-GAAP results is provided in the financial statement tables included in this press release.

In this press release, the Company has reported non-GAAP sales growth percentages after adjusting for the impact of foreign currency exchange, business development transactions, and/or other events as well as EBITDA or earnings before interest, taxes, depreciation and amortization. The Company refers to the calculation of non-GAAP sales percentages as "organic." The Company analyzes non-GAAP sales on a constant currency basis, net of acquisitions and other non-recurring events, and EBITDA to better measure the comparability of results between periods. Because changes in foreign currency exchange rates have a non-operating impact on net sales, and acquisitions, product discontinuations, and other strategic transactions are episodic in nature and are highly variable to the reported sales results, the Company believes that evaluating growth in sales on a constant currency basis net of such transactions provides an additional and meaningful assessment of sales to management. The Company believes that evaluating EBITDA provides an approximation of the cash generating ability of its operations.

In addition, the Company has presented in this press release two additional non-GAAP measures. The first presents operating income excluding the one-time gain from the Reddick divestiture. The second non-GAAP measure, "adjusted operating income," was calculated by approximating the Company's operating income had the divestiture of the Reddick product lines not occurred. In order to do so, the Company i) excluded the one-time gain resulting from the sale of the assets as well as gross profits associated with contract services to Symmetry Surgical, Inc. and ii) added back estimated lost gross profits from the product lines divested as well as transaction costs. You should not view operating income excluding the one-time gain or adjusted operating income as a substitute for operating income determined in accordance with GAAP. However, Company management believes that the presentation of operating income excluding the one-time gain provides a view of the Company's results of operations excluding a non-recurring event and adjusted operating income provides an understanding of the Company's results of operations in the absence of the Reddick divestiture.

Forward-Looking Statements

The Company's current financial results, as discussed in this release, are preliminary and unaudited, and subject to adjustment. This press release contains forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Statements in this press release regarding the Company's business that are not historical facts may be "forward-looking statements" that involve risks and uncertainties. Specifically, forward-looking statements in this release include, but are not limited to, statements about the Company's expectations regarding Q3 2018 and 2018 sales, gross margin, operating income and earnings per share. Forward-looking statements are based on management's current, preliminary expectations and are subject to risks and uncertainties that could cause actual results to differ from the results expected, including, but not limited to, the risk of significant fluctuations in our quarterly and annual results due to numerous factors; the risk that we may not be able to maintain our recent levels of profitability; the risk that the Company may not realize the anticipated benefits of its strategic activities; the risk that assumptions about the market for the Company's products and the productivity of the Company's direct sales force and distributors may not be correct; risks related to the integration of acquisition targets; risks related to product demand and market acceptance of the Company's products and pricing; the risk that a recall of our products could result in significant costs or negative publicity; the risk that the Company is not successful in transitioning to a direct-selling model in new territories; and other risks and uncertainties included under the heading "Risk Factors" in our most recent Annual Report on Form 10-K, as updated by our subsequent filings with the SEC, all of which are available on the Company's investor relations website at http://www.lemaitre.com and on the SEC's website at http://www.sec.gov. Undue reliance should not be placed on forward-looking statements, which speak only as of the date they are made. The Company undertakes no obligation to update publicly any forward-looking statements to reflect new information, events, or circumstances after the date they were made, or to reflect the occurrence of unanticipated events.
