

## LeMaitre Regains Five CE Marks

May 25, 2021

BURLINGTON, Mass., May 25, 2021 (GLOBE NEWSWIRE) -- LeMaitre (Nasdaq:LMAT), a provider of vascular devices, implants and services, today announced that it received CE marks under the European Medical Devices Directive (93/42/EC as amended by 2007/47/EC) for the following five products. Marks for the five products had previously lapsed due to a change in notified bodies.

Product	Notified Body	Expiration Date
XenoSure Biologic Patches	TUV SUD	May 26, 2024
AlboGraft Polyester Vascular Grafts	TUV SUD	May 26, 2024
Pruitt Carotid Shunts	SGS	May 24, 2024
Flexcel Carotid Shunts	SGS	May 24, 2024
AnastoClip Closure Systems	SGS	May 24, 2024

The indications for use under the new CE mark for XenoSure no longer include neuro or cardiac applications, indications for which the product was approved under its prior CE mark. Additionally, only XenoSure made from bovine pericardium sourced from certain of our suppliers is permitted to be sold under the new CE mark.

Andrew Hodgkinson, SVP of Clinical, Regulatory & Quality Affairs, said, "While our customers have largely enjoyed uninterrupted supply of most of these devices due to inventory stockpiles and local derogations, we are pleased to have received these five CE marks before the transition to the new Medical Device Regulation in the EU on May 26, 2021. We emerge from this transition having lost CE marks on several smaller product lines totaling just 3% of our 2019 EMEA sales."

### About LeMaitre
