## Use of Non-GAAP Financial Measures

LeMaitre Vascular management believes that in order to better understand the Company's short-term and long-term financial trends, investors may wish to consider certain non-GAAP financial measures as a supplement to financial performance measures prepared in accordance with GAAP. Non-GAAP financial measures are not based on a comprehensive set of accounting rules or principles and do not have standardized meanings. These non-GAAP measures result from facts and circumstances that may vary in frequency and/or impact on continuing operations. Non-GAAP measures should be considered in addition to, and not as a substitute for, financial performance measures in accordance with GAAP. In addition to the description provided below, reconciliation of GAAP to non-GAAP results is provided in the financial statement tables included in this press release.

In this press release, the Company has reported non-GAAP sales growth percentages after adjusting for the impact of foreign currency exchange, business development transactions, and/or other events as well as EBITDA or earnings before interest, taxes, depreciation and amortization. The Company refers to the calculation of non-GAAP sales percentages as "organic." The Company analyzes non-GAAP sales on a constant currency basis, net of acquisitions and other non-recurring events, and EBITDA to better measure the comparability of results between periods. Because changes in foreign currency exchange rates have a non-operating impact on net sales, and acquisitions, divestitures, product discontinuations, and other strategic transactions are episodic in nature and are highly variable to the reported sales results, the Company believes that evaluating growth in sales on a constant currency basis net of such transactions provides an additional and meaningful assessment of sales to management. The Company believes that evaluating EBITDA provides an approximation of the cash generating ability of its operations.

The Company has calculated the percentage change in its Q2 2019 operating income, net income, earnings per share, EBITDA and operating expenses excluding "special items." Those special items were the gain on the Company's Q2 2018 divestiture and a 2019 restructuring charge. Because acquisitions, divestitures and restructurings are episodic in nature and are highly variable to the Company's results, the Company believes that evaluating its profitability net of such transactions and events provides an additional and meaningful assessment of profitability to management. The Company also believes that evaluating the increase in its operating expenses excluding such items provides an approximation of the ongoing operating expenses of its business without the impact of highly variable events.

The Company has also identified the percentage change in its projected 2019 operating income and earnings per share excluding "special items." Those special items are the gains on the Company's 2018 acquisitions and divestitures, net of tax, and a 2019 restructuring charge. Because acquisitions, divestitures and restructurings are episodic in nature and are highly variable to the Company's results, the Company believes that evaluating its profitability net of such transactions and events provides an additional and meaningful assessment of profitability to management.

## Forward-Looking Statements

The Company's current financial results, as discussed in this release, are preliminary and unaudited, and subject to adjustment. Specifically, forward-looking statements in this release include, but are not limited to, statements about the Company's expectations regarding Q3 2019 and 2019 sales, gross margin, operating income and earnings per share. Forward-looking statements are based on management's current, preliminary expectations and are subject to risks and uncertainties that could cause actual results to differ from the results expected, including, but not limited to, the risk of significant fluctuations in our quarterly and annual results due to numerous factors including the acceleration or deceleration of product growth rates; the risk that we may not be able to maintain our recent levels of profitability; the risk that the Company may not realize the anticipated benefits of its strategic activities; the risk that assumptions about the market for the Company's products and the productivity of the Company's direct sales force and distributors may not be correct; risks related to the integration of acquisition targets; risks related to the Company's ability to attain or maintain regulatory approvals for its products; product demand and market acceptance of the Company's products and pricing; the risk that a recall of our products could result in significant costs or negative publicity; the risk that the Company is not successful in transitioning to a direct-selling model in new territories; and other risks and uncertainties included under the heading "Risk Factors" in our most recent Annual Report on Form 10-K, as updated by our subsequent filings with the SEC, which are all available on the Company's investor relations website at <http://www.lemaitre.com> and on the SEC's website at <http://www.sec.gov>. Undue reliance should not be placed on forward-looking statements, which speak only as of the date they are made.
